Recharging from a Mobile Plan to a Wearable Plan is not permitted.

(b) **"Wearable Plan"** – where you prepay an amount that entitles you to:

- (i) unlimited standard national call minutes;
- (ii) unlimited standard national SMS;

- (v) any other entitlements we offer.

These Plans have the words "Wearable Plan" in their advertised product name and are always **Pre-Paid Plans**.

Wearable Plans can only be used in conjunction with a Wearable Device, not a Mobile Phone/Tablet/Modem. A Wearable Device is any electronic device that can be worn as an accessory, capable of transmitting and receiving data via the internet.

Recharging from a Mobile Plan to a Wearable Plan is not permitted.

- (c) **"Data Pack"** – where you prepay an amount, which gives you access to data in addition to the data allowance of a Mobile Plan or Wearable Plan. You must have an active and current Mobile Plan or Wearable Plan to purchase and use a Data Pack.
 - (vi) You can only have one Data Pack on your Mobile Plan or Wearable Plan Service at any one time.
 - (vii) If you have a Mobile Plan with a Data Pack and then purchase another Data Pack, any remaining data in the first Data Pack may be eligible for Data Banking (for more information see clause 13 of these terms and conditions).
 - (viii) If you have a Wearable Plan with a Data Pack and purchase another Data Pack, any remaining data in the first Data Pack will be forfeited and not refunded.
- (c) **"International Calling Pack"** – where you prepay an amount that allows you to make a total of 120 minutes of calls to 42 eligible locations from Australia. You must have an active and current Mobile Plan to purchase and use an International Calling Pack.
 - (i) You can only have one International Calling Pack on your Mobile Plan Service at a time. If you have an active International Calling Pack, and then purchase another International Calling Pack, any remaining minutes in the first will be cancelled and not refunded.
 - (ii) International Calling Packs cannot be added to a Wearable Plan.
- (d) **"Pay as You Go (PAYG) Pack"** – where you prepay an amount that allows you to send standard international SMS and non-video MMS from Australia at a set price per message (see the PAYG rates). You must have an active and current Mobile Plan to purchase and use a PAYG Pack.

 - (ii) PAYG Packs cannot be added to a Wearable Plan.
- (e) **International Roaming** is not available on Konec Mobile Plans or Wearable Plans but you are able to receive SMS over a compatible mobile network when you are overseas. A compatible network is one with which our network provider has roaming arrangements, which are subject to change without notice.
- (f) **VoLTE or Voice over Long-Term Evolution (VoLTE)** allows customers to make and receive phone calls on compatible mobile phones using Telstra's 4G network. VoLTE calls are sent over the 4G network instead of the 3G network. Your mobile plan is able to make and receive VoLTE calls on your mobile phone while in a 4G only coverage area, provided that VoLTE is enabled on your handset. To check if your device supports VoLTE, you will need to contact your device manufacturer. We use the Telstra Wholesale Mobile Network, learn more at www.telstrawholesale.com.au/mobile-network.m The Telstra Wholesale Mobile Network coverage area reaches more than 98.8% of the Australian population and covers more than 1.7m square kilometres of the Australian landmass.

(g) **Wi-Fi Calling**

- (i) Wi-Fi Calling allows you to make voice calls over a compatible Wi-Fi network. If you are connected to a compatible Wi-Fi connection and Wi-Fi calling is enabled on your handset, your voice calls will connect over Wi-Fi by default.
- (ii) To use Wi-Fi calling you must have a Wi-Fi compatible handset, have Wi-Fi calling enabled in your settings and have an active Mobile Plan or Wearable Plan.
- (iii) Wi-Fi calls within Australia are treated as a standard call in the unlimited inclusion on Konec Mobile Plan and Wearable Plan so there is no charge. Wi-Fi calls will consume data from the Wi-Fi network you are connected to, not your plan data allowance.
- (iv) Wi-Fi calls from overseas back to Australia only are treated as a standard call in the unlimited inclusion on Konec Mobile Plan and Wearable Plan so there is no charge.

Wi-Fi calls will consume data from the Wi-Fi network you are connected to, not your plan data allowance. If you move out of Wi-Fi range while on a Wi-Fi call back to Australia, the call will be disconnected.

4. PLANS

- (a) When you purchase a Konec Mobile SIM pack through our website or one of our retailers, the SIM card has a predetermined value (as advertised) that can be redeemed towards the purchase of one of our Plans.
- (b) You can use the stored value on the SIM to purchase a Plan of the same value as that shown on the packaging or a Plan of a higher value by making an extra payment. At activation, you cannot select a Plan that has a lower value than that shown on the packaging and stored on the SIM card.

4.4 Expiry and Discontinuing Plans

- (a) Services expire at their Credit Expiry Period. After the Credit Expiry Period for a Service, any remaining Credits are cancelled – except if a Data Bank exception applies (see clause 13). Unless we are required by applicable laws, we do not provide refunds on Credits lost at the Credit Expiry Date.
